Enterprise Risk Statistics

Enterprise Risk Statistics					
No. of Key Risk		3	No. of Risk Treatments		7
Avg. Inherent Risk Score	Value	13	Progress of Risk Treatments		63%
	Color		Treatments by Status	Not Started	1
Avg. Residual Risk Score	Value	7		In Progress	3
	Color			Completed	1
Risk Priorities	8 Risk(s)		Very High		2
			High		2
			Medium		0
			Low		4

Note: These counts are according to residual risk rating.

Divisional Risk Statistics

Risk Statistics	Total Risk Per Division	Risk Priority				Avg. Risk Score
		Very High	High	Medium	Low	
Corporate Services Division	4	1	2	0	1	9.50
Finance & Treasury Division	0	0	0	0	0	0.00
Investment & Strategy Division	1	0	0	0	1	1.00
Legal & Compliance Division	0	0	0	0	0	0.00
Operations Division	1	0	0	0	1	1.00
SNGPL	2	1	0	0	1	8.50
Technology & Innovation Division	0	0	0	0	0	0.00

Risk Statistics	No. of Risk Treatments	Progress of Risk Treatments	Treatment by Status		
			Not Started	In Progress	Completed
Corporate Services Division	2	29%	0	2	0
Finance & Treasury Division	0	0%	0	0	0
Investment & Strategy Division	0	0%	0	0	0
Legal & Compliance Division	0	0%	0	0	0
Operations Division	1	50%	0	1	0
SNGPL	4	69%	1	0	1
Technology & Innovation Division	0	0%	0	0	0

Risk Register (8 risks)

Code	Risk	Department	Stage	Inherent Risk	Inherent Trend	Residual Risk	Residual Trend
R-36	Manpower Shortage Risk	Human Resource	Monitoring	Very High		Class I	
R-38	Fire can happen - Title	Pipeline Operations or Asset Integrity	Monitoring	Very High		Class I	
R-40	Title	Human Resource	Monitoring	Very High		Class IV	
R-41	demo	Technology	Monitoring	Very High		Class I	
R-43	Risk registered	Business Intelligence & Market Research	Monitoring	Medium		Class I	
R-45	Risk of Fire	Technology	Monitoring	Very High		Class III	
R-46	test	Technology	Monitoring	High		Class III	
R-47	Fire caution	Technology	Monitoring	Very High		Class IV	

Risk Controls (186 Controls)

Code	Control Title	Control Description	Linked Risk
C-278	Prototyping Feedback Collection	Feedback from stakeholders on prototypes is systematically collected and analyzed.	1
C-320	Survey Design and Implementation	Surveys are designed and implemented to gather relevant market data from target audiences.	0
C-322	Research Findings Documentation	Research findings are documented and presented in a clear and actionable format.	0
C-323	Stakeholder Review of Research Results	Research results are reviewed and validated by relevant stakeholders to ensure accuracy and relevance.	0
C-324	Continuous Market Monitoring	Ongoing market monitoring is conducted to keep abreast of changes and new developments.	0
C-327	App Functionality Testing	Comprehensive functionality testing is performed to ensure the app operates as intended.	0
C-328	User Interface (UI) Consistency	UI design guidelines are followed to maintain consistency across the app.	0
C-329	Performance Optimization	Performance optimization techniques are applied to enhance app speed and responsiveness.	0
C-330	Cross-Platform Testing	Testing is conducted across different devices and operating systems for compatibility.	0
C-331	Compliance with App Store Guidelines	Mobile apps are reviewed to ensure compliance with app store submission guidelines.	0
C-332	Data Encryption for Mobile Apps	Data encryption techniques are implemented to protect sensitive information.	0
C-333	User Data Privacy Policies	User data privacy policies are established and adhered to in mobile app development.	0
C-334	Version Release Management	Version releases are managed with proper documentation and change tracking.	0
C-335	Bug Tracking and Resolution	A system is in place for tracking and resolving bugs reported during development.	0
C-336	User Feedback Integration	User feedback is collected and integrated into app improvements and updates.	0
C-337	Automated Testing Tools	Automated testing tools are used to streamline the testing process and increase coverage.	0
C-340	Cloud Security Protocols	Cloud security protocols are implemented to safeguard cloud infrastructure.	0
C-341	Access Control Management	Access controls are enforced to restrict unauthorized access to cloud resources.	0
C-342	Regular Security Audits	Regular security audits are conducted to identify and address vulnerabilities.	0
C-437	General Practice	Utility bills received from concerned section are properly verified and sent to accounts department form payment.	0
C-438	Gas Pipeline Pressure Monitoring System	Implementation of an automated pressure monitoring system using SCADA technology to detect anomalies and prevent supply	0
C-440	Title	Description	0
C-442	New Control	Description	0
C-443	New Control New	Description. d	0
C-444	New Control	Control	0
C-445	New Control 2	Control	0
C-446	Regular inspection and pressure testing of the control	The inspection team inspects the regulatory gas system on a daily basis	0
C-460	New Control	Descripn	1
C-462	New Control 1	Control	1

Code	Control Title	Control Description	Linked Risk
C-463	API Security Testing	Security testing is conducted to identify and mitigate vulnerabilities in APIs.	1
C-465	new risk control	this is ne risk control	1
C-467	API Performance Monitoring	Performance of APIs is monitored to ensure responsiveness and efficiency.	0
C-468	Fire alarm	Fire alarm	1
C-431	asdf	asdf	0
C-448	Compliance checks	Regular compliance checks with credit policy and SAMA regulations; exception reporting to management.	0
C-451	Control to prevent risk	With this risk can be controlled	0
C-439	Change Management for Designs	A change management process is in place to handle revisions to product designs.	0
C-450	Control Ttile	Description	0
C-453	System based reporting/ data analysis of shortage of	A system-based reporting and data analysis mechanism is implemented to monitor and identify shortages in manpower. This	0
C-457	Initiate recruitment process subject to availability of	Initiate recruitment process subject to availability of budget.	1
C-458	Arranging contractual/ temporary engagements as	Arranging contractual/ temporary engagements as per operational requirements.	1
C-466	API Authentication and Authorization	Authentication and authorization mechanisms are implemented for API access.	0
C-385	Access Controls	Access controls are enforced to restrict unauthorized access to systems and data.	0
C-416	Regulatory Updates Management	A process is in place to track and implement updates to regulatory requirements.	0
C-420	Social Media Risk Management	Risks associated with social media marketing are identified and managed.	0
C-421	SEO Best Practices	Search Engine Optimization (SEO) best practices are followed to enhance content visibility.	0
C-422	Regulatory Updates Monitoring	A process for monitoring and integrating regulatory updates into HR practices is in place.	0
C-424	Control 1	Control 1	0
C-441	New Control	Insurance	0
C-454	Follow-up Finance and Regulatory Affairs for	Follow-up with Finance and Regulatory Affairs for provision of Funds for recruitment.	0
C-455	System based reporting/ data analysis of shortage of	System based reporting/ data analysis of shortage of manpower.	1
C-456	Follow-up Finance & Regulatory Affairs for	Follow-up with Finance and Regulatory Affairs for provision of Funds for recruitment.	1
C-432	sf	gsdfg	0
C-346	Incident Response Plan	An incident response plan is in place for managing cloud-related security incidents.	0
C-347	Vendor Management	Vendor management procedures are implemented to ensure third-party cloud services comply with security requirements.	0
C-348	Compliance with Regulations	Cloud infrastructure management complies with relevant industry regulations and standards.	0
C-349	Resource Allocation and Optimization	Cloud resources are allocated and optimized to enhance performance and reduce costs.	0
C-350	Change Management	Change management processes are in place to manage updates and modifications to cloud infrastructure.	0
C-351	Disaster Recovery Planning	Disaster recovery plans are developed and regularly tested to ensure business continuity.	0
C-352	Logging and Audit Trails	Logging and audit trails are maintained to track access and changes to cloud resources.	0

Code	Control Title	Control Description	Linked Risk
C-353	Configuration Management	Configuration management practices are implemented to maintain consistent cloud settings.	0
C-354	Cost Management and Optimization	Cost management and optimization practices are employed to monitor and control cloud expenditure.	0
C-355	Incident Management System	An incident management system is in place to log, track, and resolve IT issues.	0
C-356	Service Level Agreements (SLAs)	SLAs are defined and monitored to ensure timely IT support and maintenance services.	0
C-357	Regular System Updates	Regular system updates are performed to maintain security and functionality.	0
C-358	Patch Management	A patch management process is implemented to apply security patches promptly.	0
C-359	Help Desk Ticketing System	A help desk ticketing system is used to manage and prioritize support requests.	0
C-360	Backup and Recovery Procedures	Backup and recovery procedures are established and tested regularly.	0
C-361	IT Asset Management	IT assets are tracked and managed throughout their lifecycle.	0
C-364	User Access Management	User access is managed to ensure proper permissions and security.	0
C-365	IT Support Training	Regular training is provided to IT support staff to keep skills and knowledge up-to-date.	0
C-362	Performance Monitoring	System performance is monitored to ensure optimal operation and address issues proactively.	0
C-363	Knowledge Base Maintenance	A knowledge base is maintained to provide solutions and information for common IT issues.	0
C-366	Incident Response Plan	An incident response plan is established for managing critical IT support incidents.	0
C-367	Service Continuity Planning	Service continuity plans are developed and tested to ensure ongoing IT support during disruptions.	0
C-368	Configuration Management	Configuration management practices are used to maintain consistent IT system settings.	0
C-369	Customer Feedback Collection	Feedback from users is collected and analyzed to improve IT support services.	0
C-370	Continuous Integration Pipeline	A continuous integration pipeline is established to automate and streamline code integration.	0
C-371	Automated Deployment	Automated deployment processes are implemented to ensure consistent and error-free releases.	0
C-372	Infrastructure as Code (IaC)	Infrastructure is managed through code to ensure consistency and reproducibility.	0
C-373	Configuration Management	Configuration management tools are used to maintain and control system configurations.	0
C-374	Continuous Monitoring	Continuous monitoring is conducted to track system performance and detect issues.	0
C-375	Security in DevOps	Security practices are integrated into the DevOps pipeline to protect against vulnerabilities.	0
C-376	Version Control Management	Version control systems are used to track and manage changes to code and configurations.	0
C-377	Backup and Recovery	Backup and recovery procedures are established for DevOps environments to prevent data loss.	0
C-378	Incident Management	An incident management process is in place for handling issues in the DevOps pipeline.	0
C-379	Testing Automation	Automated testing tools are used to ensure code quality and functionality.	0
C-380	Change Management	Change management procedures are followed to control changes to the DevOps environment.	0
C-396	after deactivation control	deactivate	0

Code	Control Title	Control Description	Linked Risk
C-409	ajsdflajsf	sadfasdf	0
C-410	sfdsadf	asdfadsf	0
C-417	Regulatory Reporting Procedures	Procedures for regulatory reporting are documented and followed.	0
C-283	Prototyping Standards Compliance	Prototyping standards are developed and adhered to for consistency and quality.	0
C-284	Design Review Meetings	Regular design review meetings are conducted to evaluate design progress and issues.	0
C-285	Design Documentation	Comprehensive design documentation is maintained for each product design and prototype.	0
C-286	Product Management Framework	A framework for product management is developed and documented.	0
C-287	Product Lifecycle Management	Processes for managing the product lifecycle from development to end-of-life are established.	0
C-288	Product Roadmap	A product roadmap outlining key milestones and timelines is created and maintained.	0
C-289	Product Requirements Gathering	Procedures for gathering and documenting product requirements are implemented.	0
C-290	Product Performance Metrics	Metrics for evaluating product performance are defined and tracked.	0
C-291	Cross-Functional Team Collaboration	Collaboration between cross-functional teams (e.g., engineering, marketing) is facilitated.	0
C-292	Product Feedback Collection	Mechanisms for collecting and analyzing product feedback from users are established.	0
C-293	Product Change Management	Processes for managing changes to the product are documented and followed.	0
C-294	Compliance with Product Regulations	Products are developed in compliance with relevant regulations and standards.	0
C-295	QA Testing Process	A structured QA testing process is developed and documented.	0
C-296	Test Planning and Design	Test plans and test cases are created and documented based on product requirements.	0
C-297	Automated Testing Tools	Automated testing tools are selected and implemented to enhance testing efficiency.	0
C-298	Manual Testing Procedures	Manual testing procedures are documented and followed where automation is not applicable.	0
C-299	Defect Tracking	A system for tracking and managing defects is implemented and maintained.	0
C-404	TEST	TEST	0
C-303	Test Data Management	Management of test data to ensure it is representative and protected is established.	0
C-304	QA Training and Certification	QA staff receive training and certification on testing methodologies and tools.	0
C-338	Code Documentation	Comprehensive code documentation is maintained to facilitate future updates and maintenance.	0
C-339	Development Environment Security	Development environments are secured to prevent unauthorized access and data breaches.	0
C-343	Data Encryption in Transit	Data encryption is applied to protect data in transit within the cloud environment.	0
C-344	Backup and Recovery Procedures	Backup and recovery procedures are established and tested to ensure data integrity.	0
C-345	Cloud Resource Monitoring	Monitoring tools are used to track the performance and availability of cloud resources.	0
C-381	Documentation and Reporting	Documentation and reporting practices are implemented for tracking DevOps processes and outcomes.	0
C-382	Performance Optimization	Performance optimization techniques are applied to enhance the efficiency of DevOps workflows.	0

Code	Control Title	Control Description	Linked Risk
C-383	Compliance Training Programs	Training programs are provided to educate employees on regulatory compliance.	0
C-384	Training and Skill Development	Training programs are in place to develop skills and knowledge for effective DevOps practices.	0
C-386	Automated API Testing	Automated testing tools are used to ensure the functionality and reliability of APIs.	0
C-387	Multi-Factor Authentication (MFA)	Multi-factor authentication is implemented to enhance access security.	0
C-388	Collaboration Tools	Collaboration tools are used to facilitate communication and coordination among DevOps teams.	0
C-389	Rate Limiting and Throttling	Rate limiting and throttling are enforced to prevent abuse and ensure service availability.	0
C-390	Security Awareness Training	Security awareness training is provided to employees to mitigate the risk of human error and social engineering.	0
C-391	Regular Audits of Revenue Recognition	Regular audits are conducted to verify the accuracy and compliance of revenue recognition practices.	0
C-394	treat	treat	0
C-399	adfadfadf	adf	0
C-407	Test	sadfsadf	0
C-408	sadfasdf	sadfsadf	0
C-412	Error Handling and Logging	Error handling and logging mechanisms are in place to track and manage API issues.	0
C-392	Compliance with IFRS/GAAP	Revenue recognition practices comply with International Financial Reporting Standards (IFRS) or Generally Accepted Accounting	0
C-397	Candi Control	With this new Control, cost should be controlled.	0
C-401	Prototype Testing Procedures	Prototype testing procedures are implemented to validate functionality and performance.	0
C-402	test	setsd	0
C-403	asdfadfa	adfafd	0
C-405	Control Test	Control Test	0
C-406	New Contro Data	New Contro Data	0
C-413	Control Title	Description	0
C-414	New control abc	abc	0
C-415	Approval of Revenue Recognition	Revenue recognition entries are subject to approval by authorized personnel to ensure correctness.	0
C-418	Handling of Onboarding Exceptions	Procedures for handling and resolving exceptions identified during onboarding are in place.	0
C-419	Training on Monitoring Procedures	Training on transaction monitoring procedures and best practices is provided to relevant staff.	0
C-423	Regular Review of Social Media Strategy	Regular reviews of the social media marketing strategy are conducted to ensure alignment with business goals.	0
C-425	Revenue Adjustment Procedures	Procedures for adjusting revenue recognition entries are established and followed as necessary.	0
C-426	1	2	0
C-427	My control	Final	0
C-428	My 2nd control	2nd control	0
C-430	Risk Management Policies and Procedures	Policies and procedures for managing regulatory risks are documented and enforced.	0
C-433	Design Approval Sign-offs	Design approval sign-offs are required from key stakeholders before proceeding with prototypes.	0
C-434	Testing	Testing	0

Code	Control Title	Control Description	Linked Risk
C-435	Test the recording	Test the recording	0
C-436	df	df	0
C-464	Insurance	Take Cover for Insurance for all assets within the company	0
C-280	Product Launch Planning	Planning for product launches, including marketing and distribution strategies, is conducted.	0
C-395	Security Patch Management	Security patches are managed and applied promptly to address known vulnerabilities.	0
C-400	adf	adf	0
C-447	Market surveillance	Market surveillance mechanisms, employee trade monitoring, and awareness programs.	0
C-452	Manpower Planning and Recruitment Management	1. System based reporting/ data analysis of shortage of manpower.	1
C-459	HR control	Description	0
C-461	Continuous Integration Testing	Integration of QA testing with continuous integration processes is ensured.	0
C-398	Design Approval Process	A formal design approval process is in place to ensure all designs meet requirements.	0
C-411	dasf	asdfasdf	0
C-429	3 Levels of control testing	3 Levels of control testing	0
C-300	Test Environment Management	Management of test environments to ensure accurate and reliable testing is conducted.	0
C-301	Test Execution and Reporting	Execution of tests and reporting of results are conducted according to the testing plan.	0
C-305	UX Research and Analysis	UX research and analysis are conducted to understand user needs and behaviors.	0
C-306	Wireframing and Prototyping	Wireframes and prototypes are created and reviewed to validate design concepts.	0
C-307	Usability Testing	Usability testing is performed to evaluate the effectiveness and usability of designs.	0
C-308	Design Guidelines and Standards	UX design guidelines and standards are established and followed.	0
C-309	User Feedback Integration	User feedback is collected and integrated into design improvements.	0
C-310	Accessibility Compliance	UX designs comply with accessibility standards and guidelines.	0
C-311	Interaction Design	Interaction design is conducted to ensure intuitive and effective user interactions.	0
C-312	Design Consistency	Consistency in design elements and user interfaces is maintained across products.	0
C-313	Design Review Process	Design reviews are conducted to ensure adherence to UX standards and requirements.	0
C-314	Continuous Improvement	Continuous improvement of UX designs based on user testing and feedback is ensured.	0
C-315	Market Research Planning	A market research plan is developed to outline objectives, methodologies, and timelines.	0
C-316	Data Collection Methods	Reliable and valid data collection methods are employed to gather market information.	0
C-317	Competitive Analysis	Analysis of competitors is conducted to understand their strengths, weaknesses, and strategies.	0
C-318	Customer Segmentation	Customer segmentation is performed to identify and target distinct market segments.	0
C-319	Industry Trends Analysis	Analysis of industry trends is conducted to identify emerging opportunities and threats.	0
C-321	Data Analysis and Interpretation	Collected data is analyzed and interpreted to derive actionable insights.	0

Code	Control Title	Control Description	Linked Risk
C-325	App Security Reviews	Security reviews for mobile apps are conducted to identify and address vulnerabilities.	0
C-326	Code Quality Standards	Code quality standards are established and enforced for mobile app development.	0
C-449	ddd	ddd	0
